

Playing pirate with her Captain lover in 1720, Anne Bonny never dreamed she'd end up a Sentinel, a soldier for mankind's mysterious guardians, the Angeli. Now Anne will live 1000 years, but in return, she must hunt & neutralize Perfidia, corrupted Angeli who drain human energy to survive. Monsters are only half Anne's troubles; her stormy love life would make Blackbeard pack up ship and move to Kansas. After losing his corporeal body in battle, Anne's former lover, Con Carey, visits her by possessing the bodies of humans, often with embarrassing results. In the meantime, Anne's complicated romance with the aloof Arch Angeli Michael has intensified; even as they square off against a new breed of Perfidia, possessing untold power. Can this unusual love triangle work together to protect the world from the cosmic horrors sworn to destroy it?
