

[...]books on which the learner has to rely hardly ever serve his purpose, being mostly little more than a disjointed tabulation of numberless opening variations, which cannot be understood without preliminary studies, and consequently only make for confusion. In the end the connection between the various lines of play may become clear, after the student has made an exhaustive study of the subject, but very few would have either the time or the inclination for such prolonged labour. Therefore another shorter and less empirical way must be found in which to acquire the understanding of sound play. My system of teaching differs from the usual ones, in that it sets down at the outset definite elementary principles of chess strategy by which any move can be gauged at its true value, thus enabling the learner to form his own judgment as to the manoeuvres under consideration. In my opinion it is absolutely ESSENTIAL to follow such strategical principles, and I go so far as to assert that such principles are in themselves SUFFICIENT for the [...].
