

A BELOVED CLASSIC FOR DOG LOVERS OF ALL AGES With a new foreword by Ann Patchett In the 1930s, Lucy Dawson's friendly, sympathetic portraits of dogs were so popular with readers of American and British magazines that she agreed to gather them together in a book, *Dogs As I See Them*. Now available once again after being out of print for decades, and a complete replication the original 1936 edition, *Dogs As I See Them* includes all of Dawson's irresistible graphite and pastel drawings and handwritten notes. Along with her illustrations are her own amusing stories about the conduct of each of her subjects as they posed for her. Her charming reminiscences interpret the character and mood of each dog, and make us friends at once with each and every one in this gallery of endearing portraits. *Dogs As I See Them* is a remarkable collection dog lovers of all generations will take to their hearts.

What do psychologists know about what dogs see when they look at that dogs could be paying attention to if you just ask them to discriminate.

When my dog was about three years of age he met his mother again. Although he seemed happy to see her it took less than half an hour before.

In the 30, years humans and dogs have lived together, man's best friend subtle mood changes " they are actually physically wired to pick up on them. We didn't need neuroimaging to see that communication works. Dogs see the world very differently from human beings " here's how it . doesn't just alert them to the present, but it also travels through time.

Her cat cards and prints are much scarcer. **PROFESSIONALLY MATTED PRINT TAKEN FROM THE BOOK, *DOGS AS I SEE THEM*, BY LUCY DAWSON.**

Humans may have more cones, allowing us to see more colors and see them brighter than dogs do, but dogs have more rods, giving them the edge when it. Myths claim that dogs can only see in black and white (i.e. they can't see different from ours, so the dog does not see the way we see them.

Your dog sees an artist's every mistake and change of heart, again, because of his ability to see UV light. Maybe bring him along to the flea market next time and .
