

Virginia Woolf is renowned for such avant-garde novels as *The Hours*, *The Waves* and her gender-swapping masterpiece, *Orlando*. Never one to shun innovation, in 1933 she took on a new challenge: to create a completely new genre and write the world's first biography of a dog.

Flush tells the story of a young red cocker spaniel that becomes the pet of the celebrated poet Elizabeth Barrett Browning. But his new mistress suffers from constant ill health, and *Flush* is forced to exchange the rural life he loves for a staid, urban existence as the house-pet of an invalid. Woolf uses the anthropomorphic style of the novel to great effect, giving the reader a dog's-eye-view of humanity and its foibles, as well as musing on such larger themes as friendship and the nature of freedom.
