

Disgusted with politics and the sudden right wing war on women, a group of determined women take matters into their own hands and form a womens political party. Initially laughed at by the established political parties, they soon change their tune when women and some men begin signing up in droves. Gender WARS - War on Women is a tongue-in-cheek Political Chick-lit set in an Alternate Reality. It is a mainstream story, based loosely on the Republican War on Women that would not appeal to Right of Center readers.

For the last year, I stood by open-mouthed, as men in the House, who hadnt a clue, passed archaic law after law, about women, as if some omnipotent wizard behind a curtain directed their actions. We know theres a Big Brother out there somewhere. Its as plain as the noses on our faces. This Big Brother is not only directing, but writing bills for Republican State legislators across the spectrum, local, state and federal. Different versions of almost the same bills are being presented and passed in various states, and when we find the source, shits going to hit the fan. Kelly said, I know. Im boiling mad, but what can we do? Its a mans world. Sally smiled. Thats what the party chairman had the nerve to say to me. Well, thats about to change. Kelly, you said youre mad. Polls show that millions of women across the country are mad, too. Lets face it. The fact that some shadowy group has declared war on us and that a certain party is going along lockstep and barrel means there are men and even some women who dont like us. And we, as a gender, are never going to reach our full potential unless we take matters into our own hands. Jennifer raised her hand. Whatre you getting at, Sally? Before Sally could answer, Lindy touched Sallys wrist. Id like to respond to that, if I may. Sally sat. Please do. Lindy smiled. Thank you. She glanced at Jennifer. Jennifer, right? Yes. Jennifer, women outnumber men in America by ten million. In two thousand and eight, women cast nine million more votes than men did. Women have political muscle. And with numerical superiority, women have the power to take over the country, literally. Men know this, but in their smug superiority dont worry about women. They have the balls and we dont. Well, they misjudged us. Men might need balls but women dont. In this climate, women are so outraged, we dont need balls. Our strength comes from within, not our sex organs. Up until now, this generation has never had a reason to assert ourselves, but things are changing. With the advent of the Tea Party, right wing legislators are getting more and more radical. Which brings me to the point of this meeting. Lindy paused for effect, Ladies, Sally and I are proposing that we form a political party for women. Men can join. We know not all men are pigs. There are many empathetic, caring men, who can register as SAFE members. Ladies, women have the numbers and with that, we have the power to, as some politicians are so fond of saying Take back our country.
