

**\*\*Re-edited using Grammarly software September 2014\*\***This is the highly anticipated second book of the Brides of Theron series. When the Theron warriors took the women of earth as mates, many questions started to come to the surface. What would they do if the women they brought home could not survive on the planet Theron? What if the war ravaged civilization was destroyed before they got back? Armed with a large bank account, Gracie Abernathy proposes to the council that if they allow her to go back to the earth's surface and take care of her stakes in her various businesses, she will voluntarily put all of her liquid assets into trust for The Brides of Theron and their children. Accompanied by her mate Dr. Zane, she shows him how life is lived on her planet while discovering over time that he is her soul mate. They spend what remains of the time she has on earth with her lawyer cousin Michael Jameson and his family. In the end, she learns that despite all of the tragedies in her life, she will never be able to live without Zane.
