

Virginia Woolley was determined to improve her lot in life by taking on the airs and graces of the middle classes, and by doing so, she managed to snare herself a rich husband. But why stop there? A husband gained can easily be lost in, say, a tragic swimming accident. Once a wealthy widow, she would be free to marry for even more money... and while she is married to husband number two Virginia meets the young and naive Christopher Elms, who believes they'll have a rosy future together. Will the black widow be caught in a web of her own making?
